containing a vector containing a nucleic acid coding for a compound as claimed in claim

1

20. (Amended) A transgenic mammal with the exception of a human, containing a DNA [as claimed in claim 14] coding for a compound as claimed in claim 1, or containing a vector [as claimed in claim 17] containing a nucleic acid coding for a compound as claimed in claim 1.

h

- 21. (Amended) A process for preparing a compound as claimed in claim 1, which comprises
- a) introducing a nucleic acid [as claimed in claim 14 or a vector as claimed in claim 17] coding for a compound as claimed in claim 1, or containing a vector containing a nucleic acid coding for a compound as claimed in claim 1 into a host cell,
  - b) cultivating the host cell, and
  - c) isolating the compound.
- 22. (Amended) A process for preparing a compound as claimed in claim 1, which comprises
  - a) cultivating a host cell [as claimed in claim18] containing a nucleic acid coding for a compound as claimed in claim 1, or a vector containing a nucleic acid coding for a compound as claimed in claim 1, and
  - b) isolating the compound.
